Subject: Geo Group: Missing information

Hello Wilson:

Happy New Year. I hope you had a nice holiday season. I am writing today to see if you have an update on when we can expect Geo Group's submission of the outstanding information that EPA Region 10 requested. Specifically, we are still in need of a visual representation on the layout and size of the pods and living areas where pesticides and disinfectants are being applied within the Northwest Detention Center. Last we spoke you were going to work with Geo Group and ICE to figure out what sort of visual representation you were able to submit. If possible, could you please let me know how that process is proceeding and when we can expect an updated submission?

Thank you,

Andrew Futerman
